FULL ONE YEAR WARRANTY: All VISE-GRIP® tools, having passed a rigid factory inspection, are warranted against defects in materials and workmanship for one year from date of original purchase. Any VISE-GRIP tool that is abused, or used for purposes other than those for which the tool was designed, is excluded from this warranty. **This warranty does not extend to consequential damages except where required by law.** If a VISE-GRIP

tool appears defective, it may be returned to the factory. If factory inspection determines that the tool is within this warranty, the tool will be repaired or replaced without charge. This warranty gives you specific legal rights which may vary from state to state. (Factory recommendation: an occasional drop of oil on all points of wear will insure better operation and prolong the life of the tool.)

Petersen Mfg. Co., Inc., DeWitt, Nebr. 68341

VISE-GRIP-the Original locking pliers

The original locking pliers were patented by the late William Petersen, a blacksmith, who learned his trade in Denmark.

In 1924 Mr. Petersen founded a small family business in DeWitt, Nebraska, to manufacture his unique hand tools. Today, Mr. Petersen's "family" has grown to include his children, grandchildren, and hundreds of employees. His idea has been

expanded to include many different VISE-GRIP tools that are used and respected by laymen and professionals throughout the world.

The quality of VISE-GRIP tools remains unchanged; they are still made with Mr. Petersen's dedication to old-world family pride and quality—the kind of quality you will not find in other brands that merely resemble the *Original Locking Pliers*.
